Example description

Write C program to merge two arrays into third array: Arrays are assumed to be sorted in ascending order. You enter two short sorted arrays and combine them to get a large array

Expected Output

```
Input number of elements in first array
3
Input 3 integers
1
4
6
Input number of elements in second array
3
Input 3 integers
-1
2
3
Sorted array:
-1
1
2
3
4
6
```
